Parlan, B. (2017, March). Independent
Game Development - Price of Freedom.
Paper presented at the International
Conference on Cultural Studies, DAKAM
Cultural Studies 17, Istanbul, TR.

Personal Interests

After our divorce from my wife, I dropout from Ph.D. and resigned from my job at university to become a **full-time blockchain** explorer. Developing myself as a *Data Scientist* (*dapp related to psychometry and sociometry*) and *Digital Artist* (procedural generated NFTs). I am founder member of **#ZincirGezenDAO**. Producing digital storytelling works such as **Advanced Artificial Consciousness** and **digiTale Journey** which was a case project for my Ph.D. research. Working as an independent technology consultant, especially focused on blockchain adoption. Writing blog articles and broadcasting over dLive, Twitch, and Youtube about many things related to technology. I am *bankless* and *stateless*, interested in **non-profit** ideas that support **remote-working**.
